Your should have your heading in the ‘Heading’ section of your paper, and the page number centered at the bottom of your ‘Footer’ section. Your paper should be well developed, and include claims as well as counter claims. Be sure to include relevant modern examples in your essay. Also, end your essay with a firm conclusion that answers your Knowledge Issue explicitly. At the very end, include the word count of the text from your paper alone. Do not count the words from your Title, Topic, or Knowledge Issue at the top of your paper. The easiest way to get an exact word count is to highlight the words of your essay and at the bottom of the page, Microsoft Word will give you your word count.]
